

Nancy's Favorite Organic Composts:

- "Organimax" by Hsu.
- "Activated Compost" by Purple Cow Organics.
- "Leaf Compost" by Hsu.

Nancy's Favorite Organic Soil Inoculants (besides compost tea):

- Trufpro (www.turfprousa.com)
- Soil Provide (www.earthfort.com)

Nancy's Favorite Organic Pest Control Products:

- Spinosad as an active ingredient for insecticide (such as Monterey Garden Insect Spray).
- Herbicidal Soap.
- Bacillus thuringiensis (BT) as an active ingredient for insecticide for control of caterpillars (such as Monterey Bt).
- Neem Oil for control of insects, mites and for disease prevention.
- Potassium Bicarbonate for disease prevention and some degree of control (Such as Monterey Bi-Carb Old Fashioned Fungicide – you will need to add something to the spray tank to help it stick to the plants. I add a little bit of Neem Oil).
- For slugs Monterey Sluggo and Sluggo Plus (the latter contains spinosad which makes it great for control of earwigs as well).
- St. Gabriel Organics Milky Spore (kills grubs in lawn after you have consistently applied it for 2-3 seasons. Start using early before grubs become a serious issue, otherwise no effect).
- St. Gabriel Organics Mosquito Repellent.
- Diatomaceous earth for slugs or ants.

Nancy's Favorite Organic / Low Toxicity Herbicides:

- Avenger (broadleaves and grasses. Use medium to high dose).
- Horticultural Vinegar by Bradfield Organics (use undiluted in sunny areas. Better for broadleaves but will kill grass if young).
- Fiesta (non organic, but low toxicity. Broadleaves only, so good for lawns).

Where to Buy:

- Your local garden center.
- Amazon.com
- M. Leonard (amleo.com)
- Planetnatural.com
- Saferbrand.com
- St. Gabriel Organics (Stgl.us)
- Monterey (Montereylawnngarden.com)
- Eco-friendly products (ecofriendlyonline.com)

Popular Brands of Organic Products :

- Monterey
- Purple Cow Organics
- Hsu Compost
- St. Gabriel Organics

- Espoma
- Jobe's
- Dr. Earth
- Natural Guard
- Scotts (chemical company, but has some organics)
- Ortho (chemical company, but has some organics)
