## THE GARDEN DOOR The Fairy and Toad Abode

One area of The Garden Door, the Fairy and Toad Abode, is reserved especially for children or at least the 'young at heart.' Located next to the copper sculpture and barrel planters on the west side of the garden, the Fairy and Toad Abode is a hidden area carved out of the cedar trees. Children enjoy the secretive nature of this space where they can find natural objects like shells, beach rocks, and stones. But under a decorated clay pot, they may also find some charming toy fairies and even a toad to play with. When you are visiting the garden with children or grandchildren, make sure to seek out and investigate the Fairy and Toad Abode.
